- Now I am in Croatia.

I am a developer with a strong drive for continuous learning and growth. I am seeking opportunities to apply and enhance my skills in real projects.

I have experience working in DevOps, including setting up and managing infrastructure, automating processes, and ensuring continuous integration and delivery (CI/CD). I am responsible for optimizing workflows, monitoring systems, and maintaining service reliability.

Additionally, I have developed applications and written coursework in Java, Python, and C languages for friends, which helped me improve my skills and gain practical experience.

Skills

- Programming Languages: Java, JavaScript, C/C++, C#, Python
- Frameworks and Tools: Spring Boot, Maven
- Databases: MySQL, InfluxBD, Postgresql
- Experienced with: Proxmox, Docker, Grafana, Telegraf, Linux server administration
- Algorithms and Data Structures
- Understanding of cryptocurrencies and blockchain technologies

Education

- I started studying for a Bachelor's degree in Computer Engineering at the National Technical University of Ukraine "Igor Sikorsky Kyiv Polytechnic Institute." 2024

Personal Qualities

- Commitment to continuous learning and growth
- Teamwork skills
- High motivation and initiative
- Quick learner

Language

- Ukrainian - native
